

# The CONSULT Coin

## *INTRODUCTION*

Crypto is exciting. We are long on Crypto. However, we see an immediate and urgent need for a one-stop service that can provide Crypto consulting (DeFi projects, token launch, NFT projects, Security Tokenization, cross-chain swap – to name a few). Our service is ***Consult Crypto (consultcrypto.net)***

We are offering consultation for a fee and will provide custom software development services for these projects – from start to finish. The goal is to provide a comprehensive delivery platform for crypto projects.

We have a simple proposition. *Consult Crypto* will launch the CONSULT coin. The CONSULT coin will be used to pay for consulting and custom software development services *Consult Crypto* offers. *Consult Crypto* shall accept the USD equivalent in CONSULT coin at the current market rate (CONSULT coin's rate on ZilSwap) for the services rendered.

## ***THE OFFER***

Share the success of our consulting and bespoke implementation services.  
Leverage the utility of the CONSULT coin.

The CONSULT coin offers a clear, unambiguous, and transparent path to the token utility.

As explained later in this document, tokenomics is designed to continuously increase the CONSULT coins' value by increasing liquidity and decreasing token supply.

## THE TOKEN

The CONSULT coin is a ZRC-2 token on the Zilliqa blockchain, chosen for its sharding technology, virtually unlimited scaling, and extremely low transaction fees.

CONSULT coin is the utility token for *Consult Crypto's* consulting services. The token holders will be able to:

- Pay for the *Consult Crypto's* consulting services
- Participate in staking (earn passive income in ZILs) – stake the CONSULT coin and get rewarded in ZILs (yes, ZILs and not coins – more on this in a later section)
- Provide CONSULT coin's liquidity on ZilSwap and earn fees for transactions

The CONSULT coin project will continue until all CONSULT coins are burnt.

## THE TOKEN LAUNCH

*Note: All token allocations will be on a first come – first serve basis*

Step 1: We shall mint a fixed 21.6 million CONSULT coins (no more minting in the lifetime of the project)

Step 2: **Pre-Private** sale to and friends/family and early birds: 2 million CONSULT coins at 8 cents (USD) per token. This offer will be valid for seven days from launch. The Pre-Private sale opens on August 21 at 8 pm EST

When the 2 million tokens (Step 1) are sold out or seven days are over, we shall stop the Pre-Private Sale

Step 3: **Private Sale – First Tranche:** we shall offer 8 million CONSULT coins at 11 cents (USD) per token. This offer will be valid for 48 hours from 8 pm EST, August 28 to 8 pm EST, August 30.

Step 4: **Private Sale – Second Tranche (Optional):** If the 8 million tokens (Step 3) are sold out, we shall offer another 8 million CONSULT coins at 14 cents (USD) per token. This offer will be valid for 48 hours from 8 pm EST, August 31 to 8 pm EST, September 2.

Step 5: **ZilSwap Pool:** *Consult Crypto* will create a ZilSwap pool with 1 CONSULT coin = 16 cents. The pool will consist of 20% of tokens sold with a corresponding number of ZILs, valuing 1 CONSULT coin = 16 cents (USD)

*For example, if all tokens were sold, that would be 18 million CONSULT tokens. 20% of that is 3,600,000 tokens. In that case, 3,600,000 tokens would be seeded into the ZilSwap pool at the rate of 16 cents (USD) per token.*

***Final Step: Consult Crypto will burn all unsold and unutilized (not added to ZilSwap pool) coins.***

*Note: for the private sales, there will be a cap of 500,000 CONSULT tokens per wallet*

# ***THE CONSULT COIN BURN AND 'ADD TO LIQUIDITY' PROCESS***

## **Key points:**

- (1) Every month (starting one month from the launch of the CONSULT project), 1% of the amount received from token sales would be used to purchase CONSULT coins from the ZilSwap at the market rate.

*For example, if the total amount from token sales is USD 2,160,000 (the maximum possible with all tokens sold), then USD 21,600 would be used every month to purchase CONSULT coins from the ZilSwap at the market rate.*

Of the purchased tokens:

70% of the tokens will be burnt.

The remaining 30% will be added back to the CONSULT coin's ZilSwap pool with matching liquidity in ZILs

The "token burn" and "add to liquidity" exercise will continue for **three years.**

(2) The CONSULT coins earned by the consulting services shall be used as follows:

80% will be burnt.

20% will be sold on the open market to pay for ongoing project development/maintenance costs.

(3) If payment for consulting and software development services is made in fiat or another crypto (or even native ZILs), 80% of the revenue earned will be used to buy from ZilSwap and burned.

Suppose there is insufficient liquidity in the ZilSwap pool. In that case, the unspent amount will be added to a running balance and utilized to buy and burn later when tokens are available on ZilSwap.

(4) The CONSULT coin project is all about transparency. *Consult Crypto* will publicly disclose all transactions made by the *Consult Crypto* team on ZilSwap to purchase and sell the CONSULT coin. In addition, all token burn transactions will also be announced.

*Consult Crypto* will post monthly reports to the CONSULT Telegram group and the *Consult Crypto* website ([consultcrypto.net](http://consultcrypto.net)) with the relevant information.

## ***WHAT HAPPENS AFTER 3 YEARS***

The project shall continue until all CONSULT coins are burnt.

After three years, the Consult Crypto team will offer immediate liquidity at 1

CONSULT coin = 24 cents USD.

## **THE CONSULT STAKING**

Staking is offered to reward loyalty; those who hold CONSULT coins and choose to stake these rather than sell will receive additional ZILs periodically as rewards. Thus, staking will generate a passive income stream.

Our approach to staking:

Instead of releasing more CONSULT coins in the market and diluting the price of token – we shall be rewarding native ZIL tokens that have immediate cash value without any negative impact on the token price

Staking will be non-custodial via the ZilPay wallet on the *Consult Crypto* website ([consultcrypto.net](http://consultcrypto.net)). The CONSULT staking rewards will be 8 ZILs per 1000 CONSULT coins staked for 30 days. Stakers will be able to unstake at any time (the rewards will be pro-rated).

Please note that staking will be available three months after token launch. Staking will be offered for a total of 3 years from the date of launch of the staking portal.

## FREQUENTLY ASKED QUESTIONS

### **Q: Why does your consulting need a utility token?**

A: The token has use cases stated above: token holders will be able to pay for *Consult Crypto's* services. Instead of getting settled in fiat or stable coins, we wish to demonstrate the utility of fungible tokens as a value-added payment medium.

### **Q: What are the consulting services offered by the team?**

A: The *Consult Crypto* team is offering bespoke services for crypto projects (DeFi projects, token launch, NFT projects, Security Tokenization – to name a few). The team will provide consultation for a fee and offer custom software development services for these projects – from start to finish. The goal is to be a one-stop-shop for crypto projects.

### **Q: Who is behind this – what is the makeup of the consulting team?**

A: The *Consult Crypto* team is comprised of seasoned business and technical leaders. These are the people who have delivered Zilliqa commercial projects such as UFFS and Hg Exchange.

### **Q: How can I get involved?**

A: We invite you to participate in the CONSULT coin private sale (the first and the second tranches) on August 28. You will need Zilliqa tokens (ZIL). You can purchase ZIL on exchanges (such as Binance or others, depending on your area).

Following the private sale, the token will be listed (liquidity added) publicly on ZilSwap on August 31.

We are excited about what lies ahead, and we look forward to having you join

us in a straightforward, transparent project that demonstrates how tokenomics should work.

## **DISCLAIMER**

The CONSULT coin is a utility token on the Zilliqa (ZRC-2) blockchain. Its purpose is to enable the holder to pay for the services rendered by the *Consult Crypto* team.

Any purchase or acquisition of CONSULT tokens should not be considered an investment opportunity. *Consult Crypto* offers no guarantee or expectation of profit from buying, holding, or selling CONSULT coins. CONSULT tokens do not represent any equity in the company providing consulting and software development services. Any offering of these tokens to the public is for the sole purpose of offering early access to the tokens that will be used for paying CONSULT consulting for the services rendered.

Utility tokens can fluctuate in market value. The *Consult Crypto* team takes no legal responsibility for any financial losses due to speculation on the CONSULT token. CONSULT tokens are not considered as an investment – therefore, we recommend that anyone choosing to purchase CONSULT tokens do so solely to pay for the consulting services.
